230V, 60Hz, 1 phase
120V, 60Hz, 1 phase
UL/CSA optional
LxWxH: 1530x790x830mm
Weight: approx. 80kg

Scope of delivery

- 1 laboratory trolley

Description

■ laboratory trolley for experimental units

The laboratory trolley enables to easily store GUNT experimental units and, when needed, moving it comfortably to another place. Accessories like specimens, tools or manuals can be stored in three drawers. Three retractable sockets are used for the current supply of the experimental unit and of an external data acquisition, for example.
